Are you in a business where you are embedding coaching capabilities; or a professional coach training organisation; or perhaps a coach and interested in pursuing excellence in coaching? Then join us for a master class **"How To Ensure That Your Coaching Achieves A Return On Investment"**.

WHAT YOU WILL LEARN

This content rich seminar will be led by Dr Peter Hawkins, Founder of The Bath Consultancy Group. The event will take the form of a Master-class.

Increasingly organisations that invest in coaching are becoming more discerning and eager to ensure that there is a demonstrable return on the investment being made. In this master-class, Dr. Peter Hawkins will illustrate the key elements that need to be accounted for to ensure the best return on the investment of time and cost.

The key elements for the organisation include:

- Creating an effective coaching strategy
- Three way contracting between coach, coachee and their line manager, with built in reviews where the contracting needs to not only set goals for the coaching but link these to value creation for and through the organisation
- Harvesting the organisational learning from both internal and external coaching relationships while preserving confidentiality
- Targeting coaching on key talent at points of transition.

The key elements for the coach include:

- Developing an approach to coaching that balances the needs of the individual being coached, their organisation and the relationship between the two
- Being clear about the strategy of the organisation and how the individual being coached can increase the value they create
- Effective coaching supervision.

Each of the key elements will be illustrated with best practice from leading firms such as BBC, PricewaterhouseCoopers, Ernst and Young and Standard Chartered Bank. There will also be practical tools and methods that both coaches and organisations can immediately apply to their own work.
