This is classified as an: East Midlands Local Network Event –presentation.

You will learn: an overview of the 9 Enneagram types and their potential for self development

About this event:

If we were more aware of the core patterns around which we organise and interpret our lives and were able to work beyond them then wouldn't we make much quicker progress in our personal development?

The Enneagram works on many levels from the simplest as a personality typing instrument to the more complex as both a psychological and a spiritual development tool. Careful study of the Enneagram reveals the patterns by which we and others organise and give meaning to all of our life experiences.

With 81 potential positions to consider at any one time, the Enneagram has a richness that other self development theories and tools lack. Sometimes though, its seeming complexity can appear hard to grasp and challenging to work with. It's so much more than a personality type indicator.

During this session Sue will:

- Briefly share some theories on the origins of the Enneagram.
- Present a whirlwind tour of the 9 Enneagram types and their potential for self development and personal fulfilment.
- Provide some interactive activities which will enlighten you and point you in the right direction if you choose to explore further.
