

**For Joint Release on 5th February 2016**

### **Global Code of Ethics for Coaches and Mentors**

To promote excellence in the development of coaching and mentoring and raise standards of practice, two of the leading global coaching bodies, the Association for Coaching (AC) and European Mentoring & Coaching Council (EMCC) have created a single, global code of ethics, which will apply to all membership categories. This work is a result of a number of collaborative discussions between the two bodies over the recent months.

It is hoped that this code will also have a wider impact by informing the work of people who are not EMCC or AC members but carry out coaching and mentoring related activities.

The EMCC and AC will be seeking other mentoring and coaching bodies and organizational signatories to this global code of ethics, details of which will follow separately shortly.

Please view the global code of ethics [here](#).
